

Data Export Guide Common District Data Model (CDM)

Modification History

Who	When	What
VDC	April 2, 2006	Completed Document
VDC	April 12, 2006	Edits to reflect changes to CDM
VDC	May 12, 2006	Change to LAM requirements in L_Assessment extracts
VDC	April 10, 2007	L_Assessment_3 and L_Assessment_4 added
VDC	December 31, 2007	<p>The following objects were added:</p> <ul style="list-style-type: none"> • L_Assessment_5 • L_Assessment_6 • L_Assessment_7 • L_Assessment_8 • L_Assessment_11 • L_Attendance • L_DIBELS • L_Discipline • L_DRP • L_Educator_Demo • L_Gates • L_POA • L_Program • L_SAT10 • L_SB_Rpt_Card • L_Student_Demo • L_TerraNova <p>The following object was redesigned:</p> <ul style="list-style-type: none"> • L_Survey_Response (L_Survey_Demo added as part of redesign.)

Purpose of this document: This document provides specifications for the data extracts that the VDC will use to build the SU/SD data warehouses.

Acceptable data: Data should come in comma-delimited format with double-quote text qualifiers on text. Numeric fields can be passed in as numeric. Empty fields should have comma placeholders

File Organization: For each type of file, one file should be sent for each academic year for your whole SU/SD. For instance, one Student file should be sent for 2004-2005 and another for 2005-2006.

File Naming Conventions: Files should be named with the following format:
<base name>_<start year>_<end year>.txt

Example: The following would be the name for the Student extract that contains data for the 2004-2005 school year.

L_Student_2004_2005.txt

Required Fields in Each Table: In this document the structure of each extract table is given as well as the “Field Headers”. Fields listed in regular BLACK font in each table are REQUIRED. Fields highlighted in BLUE are NOT REQUIRED but must be “accounted for” in file layout.

SAT-9, SAT-10 and TerraNova files may be submitted as fixed-field ASCII .txt or .dat files as received from the test publishers. VDC staff will work with local SU/SD staff to do any additional preparation necessary for processing.

If districts have this data in other formats, VDC staff will work with you to process the data using one of the generic assessment objects (L_Assessment_1, L_Assessment_2, etc.)
